

Distance Learning: Client-hosted Training

Client-hosted Training

Our client-hosted service allows emergency services departments to conduct or host fire etc. courses for their members. The host department assumes responsibility for scheduling the course, securing qualified instructors and proctors/evaluators.

Procedures to apply for and conduct client-hosted training are now outlined in a step-by-step handbook. You can request a handbook from Distance Learning at dlearnfire@lakelandcollege.ca or **780 581 2002**, or you can download it from www.lakelandcollege.ca/fire-etc/

Emergency Preparedness
